

MUHAMMAD UBAID

Agentic AI Full-Stack Developer

ubaidkamran67@gmail.com | 0306-2427677 | github.com/Muhammad-Ubaid-1166

Portfolio Website: portfolio-flame-omega-11.vercel.app

SUMMARY

Full-stack developer specializing in agentic AI applications, currently in the 2nd year of my degree and building production-style projects with Next.js, FastAPI, and PostgreSQL. Hands-on experience with AI agent frameworks (OpenAI Agents SDK, LangGraph, LangChain), RAG pipelines, and multi-service backend architectures (WebSockets, Redis, Celery, MCP). Learning Machine Learning alongside coursework to deepen the AI engineering side of full-stack work.

TECHNICAL SKILLS

- **Frontend:** Next.js, React, TypeScript/JavaScript
- **Backend:** FastAPI, Python, WebSockets, REST APIs
- **Databases & Infra:** PostgreSQL, Redis, Celery, Supabase
- **AI / Agentic Systems:** LangChain, LangGraph, LiteLLM, RAG pipelines, OpenAI Agents SDK, MCP (Model Context Protocol), tool orchestration
- **Machine Learning (in progress):** scikit-learn, practical statistics & math for ML
- **Tools:** Git/GitHub, Docker basics, XAMPP, Linux (Arch/Hyperland, Ubuntu, Fedora, CachyOS)

PROJECTS

YouTube Content Automation Pipeline: [Live](#)

- AI-powered pipeline that regenerates YouTube video content end-to-end — rewritten title, description, hashtags, a full script, AI-generated images, and a recreated thumbnail — using a FastAPI + LangGraph multi-agent backend and a Next.js frontend.

Blog Agent: [Live](#)

- AI agent for automated blog content generation, built and deployed with Streamlit.

Self-RAG Chatbot: [Live](#)

- RAG chatbot that grounds responses in retrieved context for more accurate answers.

Research App: [Live](#)

- Frontend interface for an AI-powered research assistant, deployed on Vercel.

Full-Stack Auth Project: [Live](#)

- Full-stack app with authentication, demonstrating frontend/backend integration, deployed on Vercel.

Additional Projects

- Advance HIT Chatbot — multi-service chatbot: FastAPI WebSocket backend, admin panel, MCP server, Next.js frontend.
- Bookly (FastAPI Learning) — book-management API with Celery task queues, Redis, and Gmail SMTP notifications.
- Deep Research Agent — Streamlit research agent on OpenAI Agents SDK with web search and resilient multi-model backends.
- Campaign Dashboard — LangChain AI chatbot recommending optimal ad colors and design improvements from campaign data.

EDUCATION & TRAINING

- ICS (intermediate of computer science)
- English Access Scholarship Program (U.S. Embassy) — completed 2-year program; strengthened English proficiency, leadership, communication, collaboration, and problem-solving.
- Governor House IT Initiative (2023–Present) — actively learning modern software development and emerging technologies through a government-supported IT program.
